About Us

Our Story

Yem Foods LLC was founded in 2008 when Pradeepan Srinivasan recognized a niche in the batter-making business in Detroit, Michigan. Assisted by his mother-in-law, Jaya, and father-in-law,

Ramanathan, and with the unwavering support of his wife, Priya, the company commenced the manufacture of batter products on a modest scale.

By 2010, sales expanded to encompass the Illinois and Ohio territories. The product line grew with the introduction of sambar, leveraging a distinctive sambar powder crafted by Pradeepan's mother, Vanitha Srinivasan.

As consumer appreciation for these offerings grew, so did the demand. Consequently, sales extended across the Midwestern states. The company consistently augmented its portfolio, introducing Lemon Pickles, Adai batter, Pesarattu batter, and Ragi Batter. By 2013, sales had further broadened to include East Coast states such as New Jersey, Massachusetts, Pennsylvania, Maryland, and Virginia. Today, with the collaboration of dedicated distributors, Priyems products grace the shelves in over 30 states across the USA.

Our Goals

- To prioritize and enforce stringent food safety processes.
- To identify and manufacture vegetarian and vegan food products that cater to current demand.
- To offer consumers a variety of flavors and sizes.
- To design easy-to-use packaging for convenience.
- To optimize plant-to-shelf logistics for swift product delivery.
- To provide unparalleled customer support.

Ready to cook batters

1: Idli - Dosa Batter

Storage/Instruction: Keep refrigerated | Add water as needed | Mix well before use

Description: The Idli-dosa batter is a versatile combo product crafted in such a way that it can be used interchangeably to make either idlis or dosas without compromising the quality of either dish. This practice originates from the southern states of India, where individuals traditionally utilize a portion of the batter to prepare idlis initially, and then utilize the remainder to make dosas. However, it's worth noting that this batter can also be used exclusively for making either dosas or idlis, providing flexibility to suit individual preferences.

Ingredients: Rice, Husked black lentil (Urad Gota), Salt and Fenugreek seeds.

Allergen info: Contains no milk, eggs, fish, shellfish, tree nuts, peanuts, wheat, soybeans or sesame seeds.

Variants:

- 1a: Regular | Weight: 900 | Serving: 20 - 24 Idlis / 12 - 14 Dosas

Instruction image: /images/product/NF/idli-dosa-party.jpg
- 1d: Jumbo | Weight: 4000 | Serving: 150 - 154 Idlis / 62 - 64 Dosas
Image: /images/product/variants/idli-dosa-batter-box-jumbo.png
Instruction image: /images/product/NF/idli-dosa-jumbo.jpg

How to use:

Idli :

1. Ensure you have the right vessel to make idlis. Idli steamers and plates are available in Indian stores. Alternatively, any steamer and plates with cavities can be used.
2. Fill the bottom part of an idli steamer or a large pot with 1-2 cups of water and bring it to a boil over medium-high heat.
3. Grease the idli molds or plates with non-stick spray to prevent sticking. Pour the idli batter into each mold, filling them about three-quarters full. Do not overfill, as the idlis need space to expand while cooking.
4. Once the water in the steamer is boiling, carefully place the filled idli molds into the steamer. Stack the molds if necessary. Close the lid of the steamer and steam the idlis for about 7-10 minutes on medium-high heat.
5. After 7-10 minutes, insert a toothpick or a knife into the center of an idli. If the batter is stuck, the idlis are not done yet. Continue steaming for a few more minutes until the toothpick comes out clean.
6. Once the idlis are cooked, turn off the heat and carefully remove the idli molds from the steamer. Allow them to cool for a couple of minutes. Then, carefully lift each idli out of the mold and transfer them to a serving plate.

Dosa :

1. Add some water to the batter to get a flowable consistency and mix it thoroughly.
2. Heat the dosa pan with oil for a few minutes and wipe it thoroughly.
3. Take a ladleful of batter and pour it onto the center of the hot pan. Quickly spread the batter in a circular motion outward from the center to form a thin, even layer.
4. Drizzle a few drops of oil or ghee over the top of the dosa. This helps to make it crispier.
5. Cook the dosa on medium-high heat until the edges start to turn golden brown and crisp, and the surface of the dosa looks cooked. (Based on the pan and stove, heat levels may vary and need adjustment)
6. Once the dosa is cooked to your liking, you can either fold it in half or roll it up,

depending on your preference.

2: Dosa Batter

Storage/Instruction: Keep refrigerated | Add water as needed | Mix well before use

Description: Dosa batter is a South Indian staple used to make dosas, crispy savory pancakes. Ready to use, it creates delicious dosas for breakfast, lunch, or dinner.

Ingredients: Rice, Husked black lentil (Urad Gota), Salt and Fenugreek seeds.

Instruction image: /images/product/NF/organic-idly-dosa.jpg

How to use:

Organic Idli :

1. Ensure you have the right vessel to make idlis. Idli steamers and plates are available in Indian stores. Alternatively, any steamer and plates with cavities can be used.
2. Fill the bottom part of an idli steamer or a large pot with 1-2 cups of water and bring it to a boil over medium-high heat.
3. Grease the idli molds or plates with non-stick spray to prevent sticking. Pour the idli

batter into each mold, filling them about three-quarters full. Do not overfill, as the idlis need space to expand while cooking.

4. Once the water in the steamer is boiling, carefully place the filled idli molds into the steamer. Stack the molds if necessary. Close the lid of the steamer and steam the idlis for about 7-10 minutes on medium-high heat.

5. After 7-10 minutes, insert a toothpick or a knife into the center of an idli. If the batter is stuck, the idlis are not done yet. Continue steaming for a few more minutes until the toothpick comes out clean.

6. Once the idlis are cooked, turn off the heat and carefully remove the idli molds from the steamer. Allow them to cool for a couple of minutes. Then, carefully lift each idli out of the mold and transfer them to a serving plate.

Organic Dosa :

1. Add some water to the batter to get a flowable consistency and mix it thoroughly.

2. Heat the dosa pan with oil for a few minutes and wipe it thoroughly.

3. Take a ladleful of batter and pour it onto the center of the hot pan. Quickly spread the batter in a circular motion outward from the center to form a thin, even layer.

4. Drizzle a few drops of oil or ghee over the top of the dosa. This helps to make it crispier.

5. Cook the dosa on medium-high heat until the edges start to turn golden brown and crisp, and the surface of the dosa looks cooked. (Based on the pan and stove, heat levels may vary and need adjustment)

6. Once the dosa is cooked to your liking, you can either fold it in half or roll it up, depending on your preference.

5: Methi Batter

Storage/Instruction: Keep refrigerated | Add water as needed | Mix well before use

Description: Methi batter is a South Indian blend crafted from a combination of rice, lentils, and fenugreek seeds (methi). This product caters to consumers seeking the health benefits provided by methi seeds. Methi seeds contain soluble fiber, which may aid in digestion by promoting regular bowel movements and preventing constipation. Also, some studies suggest that fenugreek seeds may help regulate blood sugar levels by improving insulin sensitivity and reducing postprandial blood glucose spikes. This can be beneficial for individuals

with diabetes or those at risk of developing diabetes. It's used to make dosa, with a hint of bitterness and a pleasant aroma.

Ingredients: Rice, Husked black lentil (Urad Gota), Salt and Fenugreek seeds.

Allergen info: Contains no milk, eggs, fish, shellfish, tree nuts, peanuts, wheat, soybeans or sesame seeds.

11: Classic Sambar

Storage/Instruction: Keep frozen | Heat well before use

Description: Sambar is a flavorful South Indian stew made with lentils, vegetables, and spices. It's savory, slightly tangy, and often enjoyed with rice, dosa, or idli. Experience the authentic taste of South India with our delicious sambar.

Ingredients: Yellow Pigeon Peas (Toor Dal), Tomatoes, Tomato Juice, Bengal Gram, Chilli Powder, Corriander Seeds, Tamarind, Turmeric Powder, Citric Acid, Salt, Carrots, Mangos, Chayote, Canola Oil, Brown Sugar, Black Pepper, Calcium Chloride, Fenugreek, Red Chillies, Black Gram, Rice, Curry Leaves, Mustard Seeds, Cumin Seeds, Asafoetida (Gum Arabic, Wheat Starch, Asafoetida)

Allergen info: Contains traces of wheat due to the presence of wheat starch in the asafoetida used. Contains no milk, eggs, fish, shellfish, tree nuts, peanuts, soybeans or sesame seeds.

Variants:

- 11a: Regular | Weight: 800 | Serving: 8 – 10 Servings
Image: /images/product/variants/classic-sambar-box.png
Instruction image: /images/product/NF/classic-sambar.jpg

How to use:

Classic Samabar :

1. Thaw // Refrigerator: Put the sambar in the fridge overnight. This is the safest way to thaw food because it slowly defrosts without reaching the danger zone. // Cold water: Put the sambar in a sealable bag and submerge it in cold water. This method is faster than the fridge, but it's more hands-on and requires your full attention. Depending on how much food you're thawing, it can take 2–3 hours. // Microwave: Use the defrost setting to thaw food over several minutes without cooking.
2. Pour the desired amount of ready-to-use sambar into a saucepan or microwave-safe bowl.
3. Stovetop Heating: Place the saucepan on the stove over medium heat. Stir occasionally to prevent sticking and ensure even heating. Heat the sambar until it reaches your desired temperature. If the sambar is too thick, you can add a little water to adjust the consistency. // Microwave Heating: If using a microwave, cover the bowl containing the sambar with a microwave-safe lid or

plate. Heat it on high for 1-2 minutes, or until it's heated through. Stir the sambar halfway through the heating process to ensure even heating.

4. Serve the hot sambar with your favorite accompaniments such as dosa, idli, rice, vada, or even with bread.

12: Coconut Sambar

Storage/Instruction: Keep frozen | Heat well before use

How to use:

Tomato Thokku :

1. Open and Enjoy: Our pickles come ready to eat straight from the jar. Simply twist open the lid and dig in to experience the satisfying burst of flavor.
2. Pairing Perfection: Serve our pickles alongside rice, dosas, idlis, rotis, favorite sandwiches, burgers, or wraps for an extra zing of flavor.
